### General Guidelines for Private Lessons

Due to the increased interest in private lessons, we have set up some guidelines that must be followed if your child will be participating in private lessons. This will hopefully help our teachers and students to be able to maximize teaching time, getting the most from each lesson. Please review the following information.

1. Lessons must be set up through the office. If your child is interested in private lessons, please let the front office know so that the appropriate teacher can be contacted to set up a time.
2. Cancellations must occur in advance of the lesson, no later than 10am the day of the lesson. Failure to cancel before this time you will be responsible for full payment of the scheduled lesson. Please cancel by notifying the teacher directly. Excessive cancellations may result in the teacher being unable to hold your spot.
3. 'No shows' will still be responsible for payment of the private lesson.
4. Parents cannot watch private lessons or record them. Staff will send recordings of students' work to parents periodically, and invite you in to watch your child's progress and discuss skills strategies.
5. Artistic License: **Parents cannot change choreography, or any aspect of the performance.** Artistic aspects of the performance are the teachers' sole responsibility, the artistic license is theirs.
